Properties, Environment, and Economic Development Committee

The Properties, Environment, and Economic Development Committee Meeting was called to order by Chairperson Erickson, on Thursday, October 26, 2023, at 10:01 a.m. in the Board Conference Room.

Present: Mr. Morse, Mr. Hardy, Mr. Walker, and Mr. Erickson. Absent: Mr. Beggs.

Also Present: Ms. Byard, Oceana County Administrator, Mr. Garry McKeen, Oceana County Parks and Recreation Commission; Mr. John Cavanagh, Oceana’s Herald-Journal correspondent; and Ms. Anderson, Oceana County Clerk.

Moved by Mr. Morse and seconded by Mr. Walker to approve the minutes of the September 28, 2023 Properties, Environment, and Economic Development Committee as presented.

Voice vote. Motion carried.

Chairperson Erickson asked if there were any changes to the agenda. Ms. Byard requested the addition of the Snow Plow Bids motion #2023-117.

Moved by Mr. Hardy and seconded by Mr. Morse to approve the agenda as amended.

Voice vote. Motion carried.

Public Comment

There were no public comments at this time.

Agenda Items

Mr. McKeen, Oceana County Parks and Recreation Commission (OCP&R), explained that various grants were applied for, however were denied. He stated that OCP&R is working on a Crystal Valley County Park master plan. He stated that an invoice from PM Blough and Assoc., was presented in the amount of \$4,350.00 for payment of the landscaping for the project. Crystal Township has agreed to cover \$2,175 (50%) and he believes that it would be beneficial for Oceana County to contribute and requested consideration to authorize funds in the amount of \$2,175 for the remaining portion of the invoice to facilitate the progress of the project. He indicated that this will be on the OCP&R agenda at the next meeting. Mr. Walker stated the board was aware of this project and feels the County Board should allow this expenditure.

Ms. Byard requested consideration for the reappointment of Mr. Bill Adams and Mr. Mike Blackmer to the Construction Code Board of Appeals through July 31, 2025.

Ms. Byard requested consideration to adopt Resolution #2023-11 opposing the pre-emption of local control in solar and wind siting and zoning. Mr. Morse noted that he conversed with Rep. Curtis VanderWall this morning and reported that the Statewide Septic Code and the pre-emption of local control in solar and wind siting and zoning have not been brought to the table yet, however, Sen. Bumstead and Rep. VanderWall have been working diligently on the opposition of both of these.

Ms. Byard indicated that there were two snow plowing bids received which are from the same Companies as the previous year. A bid from Hallack Contracting for locations one and two as well as Beckman Bros. for locations three and four was received. Ms. Anderson read the amounts listed on the bids.

Public Comment

Garry McKeen, Oceana County Parks and Recreation indicated the Gales Pond Project is completed. Cedar Point continues to be worked on.

Chairperson Erickson asked if there was any further business to come before the Board. There being none, the meeting adjourned at 10:18 a.m.

Respectfully submitted,

Amy L. Anderson
Oceana County Clerk

MSU Extension Oceana

@MSUExtension

MESSAGE FROM THE DISTRICT DIRECTOR

I'm excited to share the results of another successful year of partnership between Oceana County and Michigan State University (MSU) Extension. Because of your continued support, we've been able to make a difference in the lives of youth, families, businesses, and communities.

MSU Extension offers a broad range of research-based educational services to County residents. Over this past year, we've empowered families and individuals to live healthier lives, supported new and local businesses, created opportunities for youth leadership development and career exploration, helped farmers with business management and mental health, and much more. Our staff live and work alongside County residents, are rooted in community relationships, and are responsive to community needs.

Again, this year, we've welcomed Oceana County residents into our online community: we've offered online educational courses, answered questions on topics ranging from gardening to food safety, raised program awareness through social media, and provided a library of research-based resources they've browsed on our website.

Our partnership with you makes this all possible. On behalf of the MSU Extension team serving Oceana County, thank you for another great year. We look forward to your continued support and hope you'll be able to join us during one of our upcoming programs.

James Kelly,

District Director

OCEANA COUNTY FOCUS AREAS

Agriculture

MSU Extension works to increase farmers' success while protecting the environment, ensuring food safety, reaching new markets and advancing agriculture through applied research. Agriculture is now one of the fastest growing sectors of the Michigan economy.

- Loan prep for beginning farmers.
- Succession Planning
- Pest and Crop Management Update
- Backyard Fruit 101
- Field Crops Webinar, Young Growers Tour
- Farm Stress, Farm Financial Analysis
- Asparagus Day
- Beekeepers Annual Conference
- Crop Scout School, Pruning Workshops
- Pesticide Application Training
- Hop Chat & Beer State Conference

Environment

Our natural resources programs improve public understanding, help landowners and communities use those assets for sustainable long-term social and economic development and conserve natural resources for future generations.

- Intro to Lakes
- Lakes Monitoring Program
- Midwest Stream Forum
- Steelhead Fishery Workshop
- Lake MI Regional Fisheries Workshop
- Wild About Conservation
- MI Birding 101
- Lawn and Garden Hotline

Community

Successful and thriving communities combine knowledgeable and engaged legislators, businesses, community groups and residents. By connecting these groups with the most trusted tools, MSU Extension helps enhance the quality of life in Michigan.

- Citizen Planner
- Fiscally Ready Communities
- Homebuyers Education, Attainable

Community (cont.)

- Starting a commercial food business
- College Access and Career Fair
- Product Center Consultations
- First Impressions Tourism - Hart
- Regional Meetings for ARPA
- Effective Meetings and Good Governance
- Oceana County Planning Commission- Planning to Plan
- Budget for Fiscal Sustainability

Health & Nutrition

MSU Extension's programming promotes healthy lifestyles and empowers Michigan residents to take control of their health. Participants learn how to build nutritious diets on a budget, reduce foodborne diseases and become leaders in the food industry.

- Eat Healthy, Be Active
- SLEEP
- Preserving Food as a Family
- Tai Chi for Arthritis
- A matter of Balance
- Diabetes Education/Prevention
- Chronic Disease PATH
- Cooking for One

Family

Keeping Michigan families strong and successful—financially, emotionally, and physically—is a big part of measuring MSU Extension's success. Programs devoted to keeping families safe include those dealing with bullying and violence prevention.

- Oceana Fair Activities
- Relax: Alternatives to Anger
- Various 4-H Club Events
- Mindfully Feeding Infants & Toddlers
- Promoting Social Emotional Health in Young Children
- Exploration Days, on campus MSU
- Helping Kids Manage Stress
- 4-H Creative Arts Celebration
- Horse, rabbit, cavy, cat clinics

4-H Oceana County

*According to research completed by the Institute for Applied Research in Youth Development at Tufts University, 4-H'ers are **4X** more likely to make contributions to their communities, **2X** more likely to be civically active, and **2X** more likely to make healthier choices.*

Agriculture Highlight

Oceana County boasts a diverse agricultural economy that produces over \$212 million annually, 60% in crop sales and 40% in livestock.

MSU Extension is helping to make a difference in Oceana County.

Highlights of MSU Extension Agricultural support in 2023: Oceana County has a long history of dependence on natural resources, and in particular agriculture, as a strong source of identity and economic prosperity. MSU Extension provided education and support to Oceana County residents through a variety of targeted workshops and services. In 2023, 104 programs related to agriculture, agricultural business, and food systems were attended by residents of Oceana County

The presence of the West Michigan Research Station in Hart provides an opportunity to bring to Oceana County expertise in various disciplines. Spring Horticulture Day is an annual program offered for West Central Michigan tree fruit growers. Approximately 90 growers attended, heard from commodity experts, networked, and received 3 pesticide application and continuing education credits for certified crop advisors for this program. Asparagus Day is a similar event, drawing in growers from across the mid-west. In 2023, 139 participants took home essential knowledge to help them maintain best practices in crop management, disease prevention, storage techniques, and more, as well as having some industry vendors available for information.

The 2023 Farm Field Day was held on Aug 8 at the West Central Michigan Research and Extension Center and was co-organized by MSU and the local MAEAP technician, Lynda Herremans. This event was in partnership with the Oceana Conservation District, Farm Bureau, and the West Central Michigan Horticultural Research Center, with additional sponsorships from 14 industry partners. With over 90 attendees, this field day highlighted fundamentals of current spray equipment and technologies that growers can use to improve farm efficiency and fruit quality. Spray drones were demonstrated in asparagus and cherry trees, and an autonomous sprayer, the mini-GUSS, was demonstrated in pear trees.

West Central Horticulture Breakfast Meetings are seasonal meetings for tree fruit growers to share timely information, weather updates, and pest and disease information about ongoing or emerging issues. This is a great meeting to share information with growers and engage industry members who sponsor breakfast each week. Coupled with one-on-one farm visits and local research plots, Extension services remain an essential piece of a thriving agricultural economy.

Oceana County farmers took advantage of a webinar focused on creating a farm business plan. The business plan helps to evaluate alternatives, identify market opportunities, and communicate ideas to potential lenders and business partners. Participants explored how to understand what lenders look for in a business plan when farms are seeking loan financing.

Additionally, in the spring of 2023 MSU Extension relaunched soil testing services for both home and commercial purposes. Both segments took advantage of the testing and accompanying analysis that MSU Extension soil testing services produces.

Resolution #24-06

RESOLUTION TO ADOPT MASTER PLAN

WHEREAS, the Michigan Planning Enabling Act (MPEA) authorizes the Planning Commission to prepare a Master Plan for the use, development and preservation of all lands in the County; and

WHEREAS, the Planning Commission prepared a proposed updated Master Plan and submitted the plan to the County Board for review and comment; and

WHEREAS, on December 7, 2023, the Oceana County Board received and reviewed the proposed Master Plan prepared by the Planning Commission and authorized distribution of the Master Plan to the Notice Group entities identified in the MPEA; and

WHEREAS, notice was provided to the Notice Group entities as provided in the MPEA; and

WHEREAS, the Planning Commission held a public hearing on March 7, 2024 to consider public comment on the proposed updated Master Plan, and to further review and comment on the proposed updated Master Plan; and

WHEREAS, the County Board finds that the proposed updated Master Plan is (a) desirable, (b) provides factual information about Oceana County, and (c) promotes coordination of land use and development decisions within Oceana County;

WHEREAS, the MPEA authorizes the County Board to assert by resolution its right to approve or reject the proposed Master Plan;

THEREFORE BE IT HEREBY RESOLVED AS FOLLOWS:

1. **Adoption of 2024 Master Plan.** The County Board hereby approves and adopts the proposed 2024 Oceana County Master Plan, including all of the chapters, figures, maps and tables contained therein. Pursuant to MCL 125.3843 the County Board has asserted by resolution its right to approve or reject the proposed Master Plan and therefore the approval granted herein is the final step for adoption of the plan as provided in MCL 125.3843 and therefore the plan is effective as of March 28, 2024.

2. **Distribution to Notice Group.** The County Board approves distribution of the adopted plan to the Notice Group.

3. **Findings of Fact.** The County Board has made the foregoing determination based on a review of existing land uses in the County, a review of the existing Master Plan provisions and maps, input received from the Planning Commission and public hearing, and with the assistance of the West Michigan Shoreline Regional Development Commission, and finds that the updated Master Plan will support and facilitate coordination of the use, preservation, and development of lands in Oceana County.

4. **Effective Date.** The Master Plan shall be effective as of the date of adoption of this resolution.

The foregoing resolution offered by Board Member _____.

Second offered by Board Member _____.

Finance and Administration Committee

The Finance and Administration Committee Meeting was called to order by Chairperson Hardy on Thursday, March 14, 2024, at 10:17 a.m., in the Board Conference Room.

Present: Mr. Erickson, Mr. Morse, Mr. Beggs, Mr. Walker, and Mr. Hardy.

Also Present: Ms. Byard, Oceana County Administrator; Mr. Kory Hansen, Oceana County Medical Care Facility Administrator; Ms. Janet Schultz, Benona Township Resident; Mr. John Cavanagh, Oceana's Herald-Journal correspondent; and Ms. Anderson, Oceana County Clerk.

Moved by Mr. Walker and supported by Mr. Beggs to approve the minutes of the February 22, 2024 Finance and Administration Committee meeting as presented.

Voice vote. Motion carried.

Chairperson Hardy asked if there were any other additions to the agenda. Ms. Byard noted that the Drain Commission budget adjustment should be removed.

Moved by Mr. Beggs and supported by Mr. Morse to approve the agenda as presented.

Voice vote. Motion carried.

Ms. Byard noted that the Special Finance minutes from the September 26, 2023 and October 19, 2023 should be added to the agenda.

Moved by Mr. Morse and supported by Mr. Beggs to approve the minutes from the Special Finance Meetings of September 26, 2023 as presented.

Voice vote. Motion carried.

Moved by Mr. Beggs and supported by Mr. Erickson to approve the minutes from the Special Finance Meetings of October 19, 2023 as presented.

Voice vote. Motion carried.

Public Comment

There were no public comments at this time.

Agenda Items

Mr. Walker began discussion regarding the Land Bank Authority purchasing policy.

Ms. Byard brought forth budget adjustments regarding Elections and the impact of nine days of Early Voting. The current adjustment addresses the wages for the Election Inspectors for all of this year. Ms. Byard also noted there will also be another adjustment regarding the expense for security officers. Ms. Anderson noted that some of the initial expense is due to the purchase of items that were not previously required for the County to have on hand such as ballot containers, bags and signage. She also noted that these purchases were one-time and would be used for future elections and were a part of a grant and/or reimbursed by the State.

Mr. Kory Hansen requested approval of the Medical Care Facility Millage Renewal Proposal. There was discussion regarding the wording and it was suggested that the verbiage be adjusted to be clearer for the voter. There will be no action taken today and will be revisited at the next meeting.

Ms. Byard did not read the claims for payment, but the following was provided:

REVIEW OF CLAIMS FOR PAYMENT (>= \$1,000 and Other Noteworthy Expenditures)

Fund #	Dept. #	Dept. Name	Amount	Purpose

Administrator’s Report

A meeting was held yesterday with regards to opioids in the jail. Upon completion of the review of this recording, a report will be given at a later date.

There will be an OCEA meeting this week.

Materials Management meeting on Friday to discuss the plan to be completed and started for our county. A meeting with Erin Kuhne with WMSRDC will follow that meeting. A report will be forthcoming.

Department Head Reports

There were no department head reports at this time.

Public Comment

Ms. Janet Schultz, a Benona Township resident stated that she was part of the Early Voting expressed the endeavor might have been expensive, but it was important to the participating voters.

Chairperson Hardy asked if there was any further business to come before the Board. There being none, the meeting adjourned at 11:01 p.m.

Respectfully submitted,

Amy L. Anderson
Oceana County Clerk

RESOLUTION #24-05 RE MEDICAL CARE FACILITY OPERATION MILLAGE

Moved by _____ and seconded by _____ to approve the language of the following ballot proposal for the purpose of funding the operations of the Oceana County Medical Care Facility.

OCEANA COUNTY
MEDICAL CARE FACILITY OPERATING MILLAGE

This proposal reestablishes the 2-mill millage previously approved by the electors that expired after the December 2023 levy. The Headlee Amendment previously reduced this millage to 1.973 mills. This ballot proposal renews the previous 1.973 mills and authorizes a new additional millage of 0.027 mills to restore the mills that were rolled back by the Headlee Amendment.

Shall the limitation upon the total amount of taxes that may be levied against all taxable property within Oceana County be increased by the amount of two dollars (\$2.00) per one thousand dollars (\$1,000.00) (2.00 mills) against all taxable property in Oceana County for a period of 8 years, 2024 through 2031 inclusive, for the purpose of funding the operations of the Oceana County Medical Care Facility? Revenue from this millage will be disbursed to Oceana County. If approved and levied in its entirety, this millage would raise an estimated \$2,962,230.00 in the first calendar year of the levy.

YES

NO

Roll call vote:

Hazard Mitigation Plan Adoption Resolution #24-07 Oceana County

Whereas Oceana County, Michigan has experienced natural and man-made disasters that have damaged commercial, residential, and public properties, displaced citizens and businesses, and presented general public health and safety concerns; and

Whereas Oceana County has prepared a Hazard Mitigation Plan under the guidance of the Oceana County Local Emergency Planning Committee (LEPC), which describes known disasters and impacts, potential hazards, and strategies to reduce overall damage and impact from hazards; and

Whereas the Hazard Mitigation Plan has been reviewed by countywide residents, business owners, and federal, state and local agencies, and has been revised to reflect their concerns;

Now, therefore, be it resolved that:

1. The Oceana County Hazard Mitigation Plan is hereby adopted as an official plan of Oceana County.
2. The Oceana County Emergency Management director is charged with supervising implementation and monitoring progress of the Plan's recommendations within the funding limitations as provided by the Oceana County Board of Commissioners or other sources.
3. The Oceana County LEPC shall provide oversight and guidance toward implementation of the Plan.
4. The Oceana County Emergency Management director shall provide an annual progress report to the Oceana County Board of Commissioners, including:
 - a. A review of any disasters or emergencies that occurred during the previous calendar year.
 - b. A review of mitigation actions taken, including accomplishments and limitations encountered during the previous year.
 - c. A proposed outline of mitigation projects and activities for the following calendar year.

Passed this **day of** _____ **(date)**.

Signed _____

Sheriff Body Scanner- A request from the Sheriff's Office to approve the purchase of a Tek84 Intercept Full Body Scanner to prevent the introduction of illegal substances into jail. There has been a significant increase in attempts to smuggle deadly illicit drugs into the jail. This poses a high degree of risk to not just inmates but also correctional staff.

Description of Project- The scanner's 34" x 72" frame allows it to be placed inside our 1966 small linear jail with minimal structural changes. The scanner is not permanently anchored to the floor, CDC approved, no "safety zone" needed around unit and low-dose x-rays allows subjects to be screened up to 1,000 times per year.

Currently, the Oceana Co. Jail staff strip searches every arrest coming into the jail. *Michigan Compiled Laws (764.25a) states a person arrested or detained for a misdemeanor offense shall not be strip searched unless both of the following occur: the person arrested being lodged into a detention facility by order of a court or there is reasonable cause to believe that the person is concealing a weapon, a controlled substance, or evidence of a crime. (2) The strip search is conducted by a person who has obtained prior written authorization from the chief law enforcement officer. If a strip search is conducted under this section; the arresting officer shall prepare a report of the strip search. The report shall include the following information: name and sex of offender, name and sex of officer, time and date, justification, list of all items recovered, copy of the written authorization and a copy provided to the offender.*

The above procedures(s) are not practical for a jail facility or its staff as incoming arrests can be for traffic offenses that do not directly give reasonable cause to believe drug/weapon possession is afoot; other arrestees may not be familiar to staff so we do not know their drug history or intentions. Statistics indicate 70% of subjects coming to jail are addicted to prescription or illicit drugs. Obviously, at this point everyone knows the current crisis of fentanyl in our community.

Furthermore, the current national judicial trends have caused a repeated cycle of inmates coming in and out of our jail. Bonds are now lowered nationally to allow inmates to get out of jail quicker to fight their cases, but their addiction remains. Now, these inmates are bonding out of jail and then "catching" a second case before they have been even sentenced on the first case. This greatly increases the opportunity to bring contraband into the jail. Additionally, courts are using a "delayed sentence" approach. This means the offender gets sentenced, but the judge doesn't remand them immediately to jail. Instead, they are given time to get their affairs in order and then come to jail. This allows them to prepare for jail by ingesting or inserting plastic bags of drugs into their bodies so it can be consumed or shared after coming to jail. Also, there has been an increased female inmate population as well as inmates transitioning from their biological gender coming to jail. This is an unprecedented time for housing people in a county jail.

Over the last 18 months we have had (4) inmates smuggle deadly narcotics in the Oceana County Jail. The one plastic bag of was pure fentanyl. All, but one person required medical

services. The most recent inmate was March 11th, 2024. It was discovered after the inmate attempted suicide in the jail's intake shower.

Funding- We believe this machine will reduce drug over-doses and help protect the health and safety of all of those in jail as well as reduce our risk of liability. The cost is **\$142,500** which includes a One Year Parts and Labor warranty. Additional warranties are available.

The Sheriff's Office plans to apply for a grant through Michigan Municipal Risk Management Authority that would reimburse the County up to **\$50,000** for installing the scanner at the jail. This grant will be submitted before April 10th, 2024.

The remaining balance of **\$92,500** will come from the Jail Commissary Fund that has received more revenue than expected. The Jail Commissary Fund can be utilized because the scanner will also be able to be used to inspect commissary packages and inmate mail. Note that this is a single quote (Sole Sourcing) as they are the only company that sells this brand specific to correctional facilities.

Can funds from the Opioid Funding be used? At the present time, only Kalamazoo County and St. Clair County have used their settlement money to purchase the Tek84 scanner. I personally feel using this allocated money the county received from the Opioid Settlement would be better spent on new countywide opioid programming.

Allegan, Berrien, Branch, Calhoun, Chippewa, Clinton, Ingham (2), Macomb (2), Manistee, Monroe (2), Ottawa, Saginaw, Van Buren and Wayne (2) have recently purchased this scanner.

Quote.docx

Goal- The scanner is not meant to be used to add charges for a person who made a mistake and was found with a personal use amount, but goal is to keep inmates from over-dosing and dying in the jail. Gone are the days when inmates would smuggle cigarettes or marijuana into the jail. Now staff is faced with inmates whose opioid addiction is so outlandish they will insert a deadly drug into their body cavities. No matter how hard the Corrections Deputies try to keep these drugs and weapons out of the jail, they find themselves at a loss due to the listed challenges.

Oceana County Administrator

COUNTY ADMINISTRATOR'S REPORT

MARCH 28, 2024

TRANSFER STATION SCALE QUOTES

We recently received updated quotes for the scales for the Transfer Station. Copies of those quotes have been included. GR Metrology provided a quote for a 50' X 11" totaling \$98,729.44. West Michigan Scales provided two quotes. The first was for a 70' X 11' totaling \$73,215 with an option of adding guard rails for \$6,510. The second quote was for a 50' X 11' totaling \$62,305 with an option of adding guard rails for \$4,650. Please let me know when you would like to discuss.

HEALTH DEPARTMENT QUIT CLAIM/LEASE AGREEMENT

The Quit Claim Deed and the release from the Lease Agreement relating to the Health Department have been processed with the County Register of Deeds after review from Commissioner Erickson. The Health Department building is now Oceana County property.

MATERIALS MANAGEMENT

The Materials Management group met on Friday, March 14th to discuss next steps relating to the Materials Management Plans for each of our counties as well as discussion relating to who the DPA would be after EGLE had determined that the DPA must be a governmental agency. We then met with Erin Kuhn of WMSRDC to relay several questions and ask if these items be placed in the agreement that would be signed by the counties. The following is the list of items that were discussed:

1. WMSRDC will take the lead in gathering information and reaching out to haulers, recyclers, etc.
2. WMSRDC will provide letters for counties to send to adjacent counties and document efforts to collaborate.
3. WMSRDC will provide an intergovernmental agreement for execution by the counties and a resolution template that approves the agreement and establishes each county's NOI.
4. WMSRDC will be responsible for all public meeting and hearing postings and notices to local units of governments for the DPA and MMPC
5. WMSRDC will take the lead in ensuring that the local units are notified of the approval of the plan and their opportunity for approval.

COUNTY ADMINISTRATOR'S REPORT

MARCH 28, 2024

6. WMSRDC as DPA recognizes their ongoing responsibilities to maintain and amend the plan as needed.

WMSRDC will be following up with an updated agreement. The agreement will be provided to each of the boards for approval once it is complete. We are still waiting for some finalization of items through EGLE, which is slowing the process.

REQUEST FOR LETTER OF OPPOSITION

The Michigan Association of Counties sent information stating that a group of senators introduced a Congressional Review Act resolution of disapproval relating to the Interim Final Rule pertaining to ARPA funds. Currently, the final rule states that ARPA funds must be obligated by December 31, 2024, with the expenditure deadline through December 31, 2026. The disapproval resolution if passed would limit the counties' ability to use funds for payroll for compliance and reporting personnel and ability to (re)obligate funds in the case that a contract is unable to fulfill their obligation. It would require the obligation of funds by December 31, 2024. Without the flexibility counties would have difficulty coming into compliance with the ARPA statute. MAC is asking that counties submit a letter of opposition to allow the Interim Final Rule to remain as is. (Please see attached)

OTHER ADMINISTRATIVE ITEMS

As stated previously, we are gathering information for the County Auditors to allow them to complete the County Audit. They are scheduled to be in house May 6 – 10.

Jessica and have been working through changes to the Personnel Manual as presented by the County Attorney. We are hoping to have this completed soon to allow for review by the County Board.

Ms. Tracy Byard
Oceana County Administrator
Oceana County
100 State St., Suite M-4
Hart, MI 49420

Dear Ms. Byard,

Thank you for your interest in West Michigan Scale Company, Inc. In response to our conversation concerning a new truck scale for your operation, I'm pleased to submit the following proposal for your consideration.

The purchase of a truck scale is an important long-term investment, and it is crucial that careful consideration be given to the best product available for your requirements. As an independent scale distributor, it is our responsibility to evaluate the benefits and advantages of the many different products available on the market, and recommend the product, which will best serve your requirements. For your application, we are pleased to offer the quality built Cardinal Truck Scale.

Cardinal Scale is a major scale manufacturer in the United States and has a reputation of building well engineered quality truck scales. The following is a detailed list of specifications and characteristics

One (1) Cardinal Armor Steel Deck Truck Scale

- 1) Platform Size: 50' X 11'
- 2) Capacity: 200,000 lbs.
- 3) Concentrated Load Capacity: 50 tons
- 4) Deck: 5/16" Steel
- 5) All steel surfaces will be hot phosphate cleaned, epoxy primed, and hard-coat alkyd enamel finish, to be applied in a dust free environmentally controlled paint chamber.
- 6) Scale has been assigned a NTEP Conformance Certificate as provided by the National Institute of Standards and Technology (NIST).

Price Installed and Calibrated: \$ 56,305.00

Made in the USA

FOB, Shipping Point

Price Includes: Platform modules, Cardinal 225D indicator, Epson TM-U290 ticket printer (standard gross-net-tare print format is included), Cardinal SB600 remote display, junction boxes, 60' of heavy duty load cell cable from platform to indicator, instruction manual, a complete set of foundation and installation prints, installation and calibration.

Installation Includes: Unloading and assembly of weigh modules, installing load cells and related hardware, aligning scale weighbridge, interfacing all electronic components, calibrating and adjusting scale with certified test weights to specifications set forth by NITS handbook 44.

CUSTOMER TO PROVIDE:

- 1) Concrete foundation per manufacturer's specifications.
- 2) Crane to unload and set weigh modules.
- 3) Dedicated 115 VAC line to the indicator, remote display and printer.
- 4) Any conduit requirements from the scale to scale house.
- 5) Verification of existing soil bearing capacity.
- 6) Permits as necessary.

Note: West Michigan Scale can provide quotations on any of the above requirements upon request. Anything above the project scope will be billed at current hourly rates.

OPTIONAL: 4' Guide rails – Add: \$ 4,650.00

CRANE COST: Provided by local contractor - Estimated Cost: \$ 3,000.00

TERMS:

- 1/3 Due upon placing order
- 1/3 Due upon receipt of equipment
- 1/3 Due upon project completion

FOB: Webb City, MO. (Estimated freight cost \$ 3,000.00)

DELIVERY: 12 – 14 weeks

WARRANTY: Per Manufactures specifications. Labor warranty is 90 days from date of installation.

SERVICE: West Michigan Scale Company provides 24-hour service by factory-trained service technicians.

As specialists in all heavy-duty truck scale systems, we are prepared to handle your weighing requirements from start to completion. Your satisfaction with our products and services is guaranteed.

Cordially yours,

Jeff Thrasher

GR METROLOGY

Proposal for 50' x 11' New Rice Lake Survivor Truck Scale Project

American Classic Roofing and Building

1845 Newaygo Rd
Bailey, MI 49303

ATTENTION
Jacob Thompson

DATE
November 17, 2023

PROPOSED BY
Jason Dennis
Jason.Dennis@grmetrology.com
616-260-6507

TRUCK SCALE PROPOSAL

Dear Jacob,

The following is Grand Rapids Metrology's detailed proposal for **(1) NEW 50' x 11' Rice Lake Survivor Steel Deck truck scale system, which will be installed on a new scale foundation.** Our package, as identified below, will include all the necessary equipment and labor for a successful installation, per your requirements.

SCALE EQUIPMENT:

(1) RICE LAKE OTR SURVIVOR STEEL DECK TRUCK SCALE

- 50' x 11' platform size
- 90,000 lb. CLC
- 200,000 lb. x 20 lb. capacity
- 18.75" scale profile
- 75,000 lb. load cell capacity
- (2) 4" Laserlight remote display with mounting pole and hardware included
- (1) 1280i indicator included
- (1) 295 ticket printer included
- Single high rub rails included
- Rice Lake 12-year warranty included

FOUNDATION SCOPE OF WORK*:

- Form and pour 50' x 11' x 1' scale foundation
- Form and pour (2) 11' x 10' x 10" reinforced scale approaches/end walls
- Form and pour (2) display pole mount foundations

*Assumptions for no underground obstructions and good draining ground to build on. Cold weather charges may apply from November through April as added chemicals/materials may be required.

American Classic Roofing and Building Responsibilities:

As a valued partner in this project, we ask American Classic Roofing and Building to assume the following responsibilities:

- Obtain all necessary permits and ensure compliance with all state weight and measurement regulations.
- Provide soil test to meet the manufacturer’s required soil bearing, if required.
- Provide location layout design for placement.
- Ensure safety barricades are available, as needed.
- Provide all electrical work, conduit, and materials, if needed.
- Provide safety watch, if needed.
- Provide scale office.
- Provide all excavation/backfill needed prior to concrete foundation work.
- Ensure scale area/foundation is clean and clear of debris.

American Classic Roofing and Building Representative Initial Here: _____

American Classic Roofing and Building Estimated Investment Summary

Rice Lake Survivor Truck Scale Equipment: \$ 98,729.44

(Includes truck scale, (2)remote displays, indicator, printer, rub rails, crane, concrete foundation work, labor/calibration and incoming freight)

Truck Scale Investment: \$ 98,729.44*

*Freight, and installation are included in total investment (pricing valid for 14 days from date of quote).
Sales tax will be additional, if applicable.

A down payment of 30% of the total project is required when placing this order: **\$29,618.83**. The new scale equipment will not be ordered until the down payment is received. If the scale is delivered, and the completion of the installation is delayed, 50% of the overall project will be invoiced upon delivery. The remaining balance is due upon completion of the project *Please remit all orders to the email address: orders@grmetrology.com. Please include your tax-exempt certificate (if applicable)*

Additional Terms and Conditions are as follows:

1. All equipment, labor, and applicable freight and shipping & handling charges will be invoiced Net 30 days upon customer receipt.
2. A 20% restocking fee plus applicable freight charges may apply for returned equipment. The customer is responsible for the total amount of equipment, plus any applicable labor and freight charges when returning custom built systems.
3. Anticipated delivery is **32-36 weeks** from receipt of your purchase order. You will be advised as to any modification of the delivery schedule.
4. Provide non-union labor for work to be performed Monday through Friday, 7:30am-4:30pm
5. Product warranty is as stated by the manufacturer.

Planned Maintenance

Grand Rapids Metrology offers the value-added benefit of a planned maintenance program for your measurement equipment. The program includes regular inspection of equipment with an accredited certificate of calibration. Let Grand Rapids Metrology manage your measurement equipment, so you can focus on your core mission. We will contact you (closer to your next inspection date) to schedule the inspection and review charges prior to our visit.

Standard Terms of Agreement

Our payment terms are Net 30, unless otherwise specified. We are, above all, flexible – but in terms of best practices, our customers find it best to create a blanket PO for the year against which we bill each month. We can also implement recurring invoicing and bill-pay, and support wire-transfer electronic payments.

The purchaser shall pay all applicable sales, consumer use, and other similar taxes required by law. If tax exempt, please supply Grand Rapids Metrology with your tax-exempt certificate. The purchaser shall secure and pay for all permits, governmental fees, and license necessary for the proper execution and completion of the work.

Acknowledgement

Grand Rapids Metrology is A2LA and ISO 17025 accredited. With the A2LA and ISO assurance, you can rely on us to provide the highest quality products and services, at competitive prices, with a reliable delivery schedule, and installation performed by the most highly trained service force in the industry.

We also offer 24-hour automated telephone answering in the event of an emergency. With three locations to serve your needs, our travel and mileage costs are kept at a minimum.

We are excited to work with you on this project and want to do what it takes to **earn your business!** If you have any questions, comments, or concerns about this quote, please do not hesitate to let us know.

I accept all terms and conditions of this proposal:

SURVIVOR[®] OTR SERIES

STEEL DECK TRUCK SCALES

RICE LAKE[®]
WEIGHING SYSTEMS

800-472-6703

www.ricelake.com

LAKE JRIVVOR
TOUGHEST TRUCK SCALES ON EARTH

Uncompromising SURVIVOR[®] Strength

Selecting a steel deck truck scale means choosing a long-lasting, quick-to-install vehicle weighing solution. The SURVIVOR OTR steel deck is designed to reduce downtime by simplifying installation and maintenance.

More Structural Steel

Rice Lake Weighing Systems' SURVIVOR truck scales are constructed with up to 25% more structural steel than competitor models, providing the increased deck support and weighbridge strength necessary to last a generation or more.

Making the Toughest Truck Scales on Earth[®] begins with design. Rice Lake's engineering team uses Finite Element Analysis (FEA) technology to identify key stress points on truck scales. This data is used to design scales with superior structural integrity, which provides maximum durability for your investment.

Long-Lasting Value

These design elements allow SURVIVOR OTR truck scales to accommodate a minimum of 250 trucks every day for 25 years without weighbridge fatigue—the equivalent of more than 2 million vehicle weighments.

Rice Lake's warranty covers load cells, junction boxes and suspension systems to ensure worry-free operation. SURVIVOR OTR truck scales also include a lightning protection package, and weighbridges are warranted against defects in materials and workmanship. Rice Lake offers either a 5-year or industry-leading 12-year warranty from delivery.

Durable Steel Deck Construction

The wide-flange I-beam construction of SURVIVOR truck scales minimizes deflection, which has a major impact on the life of the weighbridge. Deflection is the change, or bend, along the primary axis between no-load and rated load conditions. When a vehicle drives onto the scale, there will be longitudinal deflection and the heavier the vehicle is, the greater the deflection will be.

Reliable Steel Deck Design

SURVIVOR scales incorporate more longitudinal beams than other manufacturers to better support the weighbridge and ensure structural stress remains below fatigue limits during deflection. This design supports vehicle tires across the entire weighbridge deck.

Competitor Designs

Most other manufacturers use fewer I-beams or bent-channel beams to reduce initial scale cost. However, these designs reduce structural integrity, causing greater deflection—shortening the lifespan of the weighbridge. Additionally, some designs require top and bottom deck plates, trapping corrosion-causing moisture inside the weighbridge.

Junior I-Beam Construction

Bent Plate Construction

Breathing Room Below

SURVIVOR OTR steel deck truck scales have an open-bottom design, using only a top deck plate on the weighbridge. This eliminates the cavity where condensation can collect, helping to prevent premature system failure due to rusting components.

P-Bracket Installation

SURVIVOR truck scales use self-seating P-brackets that simplify weighbridge module connection. The P-bracket design eliminates the need to bolt modules together, ensuring proper vehicle loading during environmental temperature changes that cause modules to expand or contract.

Self-Checking Mounting System

The G-Force™ self-checking mounting system on SURVIVOR truck scales eliminates excess movement and scale fatigue by using 100% of the gravitational force from the vehicle loading action against itself. This allows the scale to return to center without the use of check rods and bumper bolts.

G-Force Mounting System

The vehicle loading force is directed down to the load cell mounts, minimizing foundation wear.

Check Rod and Bumper Bolt System

The vehicle loading force is directed horizontally into the foundation, resulting in costly maintenance.

Load Cell Pockets

The load cell pockets on SURVIVOR truck scales are integrated into the longitudinal beams, providing a stable framework for suspension components and reducing structural fatigue on the ends of the weighbridge.

SURVIVOR load cell pockets also feature boltless top access plates. This design allows load cells and electronics to be accessed from the top of the scale deck for convenient maintenance. Boltless covers also reduce downtime by eliminating the time-consuming work of removing bolts that have been frozen or rusted in place.

SURVIVOR[®] OTR SERIES

STEEL DECK

Elevate Your Truck Scale Performance with iQUBE²[®]

Rice Lake's iQUBE² digital diagnostic junction box performs the same diagnostic functions as a scale that uses a digital load cell, but at a more cost-effective price and with more benefits.

This advanced junction box runs diagnostics for failed load cells, weighing errors and overall system health. Additional benefits include being less susceptible to damage from vibration and moisture, sending email alerts to a designated service provider and using load cell emulation to ensure your scale can weigh temporarily even after a cell failure.

SURVIVOR OTR STEEL DECK SPECIFICATIONS

LOAD CELLS:	Rice Lake RL75058-LP alloy steel, Double-ended beam 75,000 lb capacity
MOUNT ASSEMBLIES:	G-force self-checking mounting system
JUNCTION BOX:	JB8SPT Tuffseal [®] polycarbonate NEMA Type 4X enclosure with overlapping solid cover, stainless steel screws
PLATFORM SIZE:	10 to 160 ft length 10 ft, 11 ft and 12 ft width, NTEP Certified up to 16.5 ft (custom length and width available)
SCALE PROFILE:	16.5 in or 18.75 in (custom profiles available)
DECK THICKNESS:	5/16 in (other sizes available)
FULL SCALE CAPACITY:	Up to 270,000 lb
CONCENTRATED LOAD CAPACITY (CLC):	100,000 lb
DUAL TANDEM AXLE (DTA):	100,000 lb
WARRANTY:	Weighbridge: 5-year or 12-year limited Parts: 5-year or 12-year limited, including lightning protection
APPROVALS:	NTEP CC 02-003, Class III L Measurement Canada AM-5413

SURVIVOR OTR STEEL DECK STANDARD FEATURES

- Open bottom design
- Longitudinal I-beam construction
- Integrated load cell pockets
- Boltless, top access to load cells and junction box
- Self-seating, P-bracket connection between modules
- G-force mount assemblies return the scale to center without check rods or bumper bolts
- Cables completely encased in rodent-proof conduit
- Thorough finishing process includes cleaning of steel before and after welding, followed by either high solids urethane liquid paint or durable powder paint

OPTIONS

- 10 lb division for truck or livestock
- 20 lb division
- 50 lb division/400,000 lb capacity
- 1/2, 3/8, or 1 inch deck plate upgrade
- Schedule 40 guiderails
- Schedule 80 guiderails
- Manhole
- Slotted manhole
- Grain dump
- Dolly down plate
- End cleanout
- Stainless steel load cells
- Tapered links and radius blocks
- Pre-suspended load cells and mounts
- Stainless steel suspension hardware
- Galvanized weighbridge and suspension hardware
- Custom coatings
- 3/8 inch runners
- Roll-off
- Side deflector plates
- Catwalk
- Landing with stairs
- iQUBE²[®] digital diagnostic junction box bundles

[Insert your county's letterhead]

[Date]

The Honorable [First Name] [Last Name]
United States Senate
[Address Line 1]
Washington, D.C. 20510

Dear [Senator] [Last Name],

On behalf of the [Number] residents of [Name] County, we urge you to oppose the Congressional Review Act (CRA) joint resolution of disapproval of the Obligation Interim Final Rule (IFR) published by the U.S. Department of Treasury (Treasury) in November 2023. The Obligation IFR provides states and local governments with critical guidance related to the statutory December 31, 2024, deadline for recipients to obligate American Rescue Plan Act (ARPA) State and Local Fiscal Recovery Funds (SLFRF).

The \$350 billion SLFRF provided \$65.1 billion in direct aid to every county, parish and borough in America and since 2021, counties have been using these critical funds to meet the unique needs of our residents and support long-term economic growth. In [Name] County, Recovery Funds have been used to [describe expenditures for responding to the COVID-19 pandemic using ARPA recovery funds such as public health, workforce development and job training, water, sewer, broadband, transportation, Title I and natural disasters].

[Name] County and other SLFRF recipients are required by law to obligate all SLFRF dollars by December 31, 2024. Treasury's November 2023 Obligation IFR provides SLFRF recipients to use these funds for payroll costs associated with compliance and reporting personnel through the December 31, 2026, expenditure deadline. Additionally, the IFR provides counties with the parameters in which we can terminate contracts and re-obligate funds beyond the obligation date, which is a crucial flexibility as workforce shortages and supply chain delays persist. Lastly, the Obligation IFR provides subrecipients with the flexibility to re-obligate funds through the expenditure deadline, which is critical to continue the administration of ARPA funded programs through the expenditure deadline.

In short, overturning Treasury's Obligation IFR would limit our ability to use funds for payroll for compliance and reporting personnel and our ability to re-obligate funds in the case a contract is unable to fulfil their obligation. Additionally, it would require that subrecipients obligate funds by December 31, 2024, instead of throughout the expenditure deadline as allowed by the IFR. Without the flexibilities provided through the Obligation IFR, [Name] County and many others across the country may have difficulty coming into compliance with ARPA statute and regulations laid out in Treasury's Final Rule.

Thank you for your continued service to [Name] County. We thank you for your partnership and respectfully ask that you oppose the CRA joint disapproval resolution that would overturn Treasury's Obligation IFR.

Sincerely,

[Name of Local Elected Official]
[County, State]

**Board Conference Room
March 14, 2024
Board of Commissioners Minutes**

The regular meeting of the Oceana County Board of Commissioners was called to order by Chairperson Walker, on Thursday, March 14, 2024, at 11:31 p.m.

Chairperson Walker led the Board in the Pledge of Allegiance to the Flag of the United States of America.

Roll was called by Clerk Anderson. Present: Mr. Erickson, Mr. Morse, Mr. Beggs, Mr. Hardy, and Mr. Walker.

Also Present: Ms. Byard, Oceana County Administrator; Mr. John Cavanagh, Oceana's Herald-Journal correspondent; and Ms. Anderson, Oceana County Clerk.

Moved by Mr. Beggs and supported by Mr. Hardy to approve the minutes from the February 22, 2024 Regular Board Meeting as presented.

Voice vote. Motion carried.

Chairperson Walker asked if any commissioners wished to declare any conflicts of interest on the agenda items. No conflicts were declared.

Chairperson Walker asked if there were any additions to the agenda. Mr. Walker noted that Motion #2024-35 and Motion #2024-37 will be removed from the agenda.

Moved by Mr. Erickson and supported by Mr. Morse to approve the agenda as amended.

Voice vote. Motion carried.

Public Comment

There were no public comments at this time.

Agenda Items

MOTION #2024-30 – MASON OCEANA 911 SURCHARGE

Moved by Mr. Hardy and supported by Mr. Beggs, to approve the recommendation of the Mason-Oceana 911 Board to continue the assessment of a local telephone surcharge in the amount of \$2.09 with no change.

Roll call vote: Mr. Hardy – yes; Mr. Beggs – yes; Mr. Erickson – yes; Mr. Morse – yes; and Mr. Walker – yes.

Motion carried.

MOTION #2024-31 – VETERANS AFFAIRS COMMISSION APPOINTMENT

Moved by Mr. Beggs and supported by Mr. Erickson, to appoint Samuel J. Stitt, IV to the Veteran Affairs Committee for an unexpired term to expire on December 31, 2026.

Roll call vote: Mr. Beggs – yes; Mr. Erickson – yes; Mr. Hardy – yes; Mr. Morse – yes; and Mr. Walker – yes.

Voice vote. Motion carried.

MOTION #2024 – 32 – WEST MICHIGAN COMMUNITY MENTAL HEALTH APPOINTMENT

Moved by Mr. Morse and supported by Mr. Hardy, to appoint Kay Seng to the West Michigan Community Mental Health Board to expire on March 31, 2027.

Roll call vote: Mr. Morse – yes; Mr. Hardy – yes; Mr. Erickson – yes; Mr. Beggs – yes; and Mr. Walker – yes.

Voice vote. Motion carried.

MOTION #2024-33 – LANDBANK AUTHORITY PURCHASING AND PROCUREMENT POLICY

Moved by Mr. Erickson and supported by Mr. Beggs, to approve the Purchasing and Procurement Policy as submitted by the Landbank Authority.

Roll call vote: Mr. Erickson – yes; Mr. Beggs – yes; Mr. Morse – yes; Mr. Hardy – yes; and Mr. Walker – yes.

Motion carried.

MOTION #2024-34 – ELECTIONS BUDGET AMENDMENT

Moved by Mr. Beggs and supported by Mr. Hardy, to adopt budget amendment #02-2024 totaling \$37,700 to adjust lines for payouts relating to the nine-day early voting.

Roll call vote: Mr. Beggs - yes; Mr. Hardy - yes; Mr. Erickson - yes; Mr. Morse - yes; and Mr. Walker - yes.

Motion carried.

MOTION #2024-36 – PAYMENT OF CLAIMS

Moved by Mr. Hardy and supported by Mr. Erickson, to adopt Motion #2024-36, approving the payment of accounts payable and release of funds for March 14, 2024.

Roll call vote: Mr. Hardy – yes; Mr. Erickson – yes; Mr. Morse – yes; Mr. Beggs –yes; and Mr. Walker – yes.

Motion carried.

Mr. Walker asked Mr. Erickson if there was any progress on the Pentwater Trail. Mr. Erickson reported it was losing traction. Mr. Erickson will reach out to find out status.

Commissioner’s Reports

Mr. Beggs stated there was a Road Commission meeting yesterday. There are a lot of road projects being planned for the year. He stated that Sandy Griffin has retired after 39 years. Mr. Walker requested a letter of thanks be drafted to her to show appreciation.

Mr. Morse voiced his thanks to the person who covered the \$1000 Drain Commission Template. Mr. Brady Selner is done at the Village of Shelby as the Village Administrator. There is an interim administrator for the next three to four months until a new replacement is found. Shelby Twp. Park is moving along. He announced that he is now the OCEA chair and very excited for this opportunity. There will be an action plan meeting on April 4 from 12:00 – 2:00. Ms. Tracy Byard and Mr. Mark Timmer have been added to the board.

Mr. Erickson stated he was glad to have Mr. Kory Hansen here to discuss the MCF and get the ballot language sorted out. He stated that there was a meeting at Leavitt Township where the cost of the brining of the roads were a big topic.

Mr. Walker stated there was a walk-through of the District Health Department building. There has been some correspondence with Kevin Hughes, where there was discussion regarding the possibility of moving the Building Inspection Department to the DHS building. He asked if this was something that all board members want to pursue. The board members consensus was that they were interested in this move. This would also open up more office space for the Veterans Affairs Department. He also noted that locating a fire hydrant at the DHD would be a good idea. Contact will be made with the fire chief. Mr. Walker also stated that Lakeshore Regional Entity (LRE) oversees substance abuse at CMH. There are two LRE committees that meet, one in Muskegon (for operational purposes) and one in Holland (for oversite purposes). He received an invite to attend the oversite committee meeting. He also mentioned that on Monday, March 18, 2024, there will be a dinner at the MSU Research Center hosted by the Oceana County Soil Conservation District.

Mr. Morse requested that the next time there is a walk-through of facilities, it would it be possible to visit the Animal Control Building and the Airport. Mr. Walker mentioned that these facilities are both fairly new and very nice facilities.

Public Comment

There were no public comments at this time.

Chairperson Walker asked if there was any further business to come before the Board. There being none, the meeting adjourned at 11:57 p.m.

Amy L. Anderson, Oceana County Clerk

Date

Mr. Walker, Chairperson
